

SINGLE PROGRAMMING (1/2)

Program keyfobs / remotes one by one.

- A1** Click on the **<Residence>** button on the left bar, then select your residence.
- A2** On the page of the apartment in which you want to create the keyfob / remote, click on the **<Create>** button.

SINGLE PROGRAMMING (2/2)

Fill the fields in the above picture:

- | | |
|-----------|---|
| A3 | Check if the programmer is connected (green light) if you have got one. |
| A4 | Put the fob /remote on the programmer, if you have no programmer, enter the serial number manually. |
| A5 | Select an authorization defining the access(es) which must be opened by the keyfob / remote. |
| A6 | If necessary, select a time range to disable the keyfob / remote during periods of the day. |
| A7 | Click on the <Save> button to save the settings. |

Note :

An update is necessary to load the creation / modification of keyfobs / remotes on site.
