

Everything you need to know to save time!

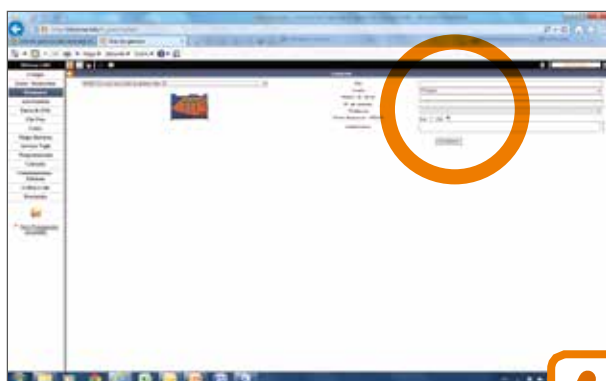

1. Order your equipment

- > From your distributor or from INTRATONE (if you already have a customer account)
- > By telephone on +33 (0) 251 655 529
By email to export@intratone.com

2. Register it on www.intratone.com even if you have not fitted it yet

Create your account via www.intratone.com
Download and complete the IT subscription contract (www.intratone.com in the documentation area)

You should note the serial numbers shown on the central unit and the GSM unit. If you have the IT contract, note the number too.

3. Fit your equipment

 Prepare for your work by downloading the complete instructions from www.intratone.com in the documentation area.

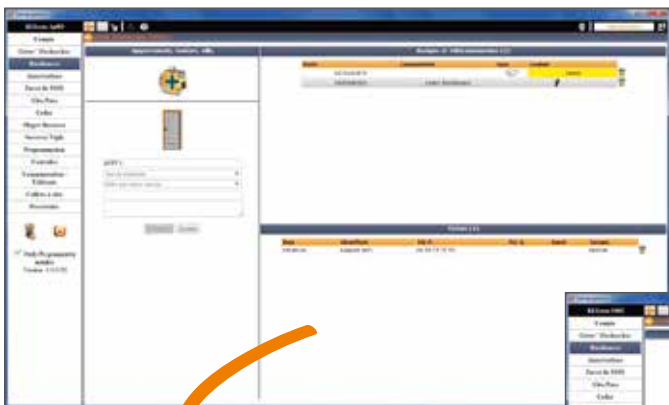

4. Test it

You can choose between:

- either on site, by using the intercom,
- or by launching an update on the management site.

 On the central unit, activate test mode ("Installation check"), then enter the telephone number that the intercom must call.
You then have 15 mins. to perform the test.

5. Complete the programming: residents' details and badges/remote controls

Enter residents' details and programm your badges and remote controls.
